PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience building and delivering scalable web applications using Node.js, NestJS, React.js, and cloud-native AWS services. Reduced API latency by 40% through microservices optimization and backend refactoring. Skilled in securing REST APIs with JWT/OAuth and deploying production systems with PostgreSQL, MongoDB, and Redis. Google Cloud Certified with hands-on DevOps experience using Docker, CI/CD pipelines, and monitoring stacks (ELK, Prometheus, Grafana).

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), TypeScript

Frontend: React.js, Next.js, AngularJS, HTML5, CSS3, Styled Components

Backend: Node.js, NestJS, Express.js, Django, Flask, Microservices Architecture, RESTful APIs

Databases: PostgreSQL, MySQL, MongoDB, Redis, DynamoDB, NoSQL

Cloud & DevOps: AWS (S3, SQS, Lambda, DynamoDB, CloudWatch), Azure, GCP, Docker, CI/CD, Jenkins

Security: JWT, OAuth 2.0, RBAC, API Security

Monitoring & Testing: ELK Stack, Prometheus, Grafana, Jest, Cypress, Mocha, Chai — Unit, Integration & E2E Testing

Tools: Git, GitHub, Jira, Postman

PROFESSIONAL EXPERIENCE

VIKI.AI Private LTD, FULL STACK DEVELOPER

01/2025 – 03/2026 | Bangalore

- Refactored and scaled backend services with NestJS, MongoDB, and PostgreSQL, applying indexing and query optimization strategies that sustained low-latency API performance under high-volume transactional datasets.
- Implemented secure authentication and authorization flows using JWT and OAuth 2.0, enforcing Role-Based Access Control (RBAC) across production platforms serving thousands of concurrent users.
- Delivered two production platforms with interactive dashboards for document workflow management and rural operations tracking, including expandable tables, contextual tooltips, and near real-time status updates.
- Partnered with cross-functional teams across design, product, and QA to define requirements, resolve bottlenecks, and release features on schedule, achieving a 95% client satisfaction rate.

Madras Fertilizers Limited, JUNIOR FULL STACK DEVELOPER

01/2024 – 01/2025 | Chennai

- Delivered production-grade user interfaces with Next.js emphasizing mobile-first responsive design, rendering efficiency, and cross-browser compatibility across modern devices.
- Modeled relational schemas in MySQL, tuning queries and indexes to support large-volume datasets while maintaining low-latency transactional operations.
- Coordinated with backend teams to deliver end-to-end product features and improve overall system reliability.

SherTech, JUNIOR BACKEND DEVELOPER

10/2023 – 01/2024 | Chennai

- Architected and optimized microservices using Node.js and TypeScript, improving backend performance and reducing API latency by 40%.
- Engineered and maintained scalable RESTful APIs with Node.js and JavaScript, enabling secure, efficient communication between distributed services.
- Leveraged Redis and DynamoDB for high-throughput data handling; implemented Git-based CI/CD pipelines using Jenkins and Grafana for production deployment workflows.

Besant Technologies, FREELANCE FULL STACK DEVELOPER

04/2023 – 10/2023 | Chennai

- Developed scalable data processing pipelines with Node.js and React.js, achieving a 40% reduction in API response time.

- Worked directly with clients to gather requirements, implement solutions, and deliver high-quality software within agreed deadlines.

Access Healthcare Services, ASSOCIATE DEVELOPER

02/2022 – 04/2023 | Chennai

- Redesigned UI/UX workflows resulting in a 67% increase in user engagement within the first month of release, improving conversion rates and customer retention.
- Modernized backend services using Node.js and Express.js, working closely with frontend teams to deliver complete end-to-end product features.

GP Strategies India Pvt Ltd, PROGRAMMER ANALYST

10/2021 – 02/2022 | Chennai

- Launched an interactive web platform supporting 5,000+ active users per month; introduced centralized state management and 50+ reusable React/TypeScript UI components, cutting feature turnaround by ~25%.

Tata Communications Ltd, SITE ENGINEER

07/2021 – 10/2021 | Chennai

- Resolved hardware and software issues for enterprise clients on-site, reducing system downtime by 50% and maintaining a 95% customer satisfaction rating.

KEY PROJECTS

Solar Platforms — Tracer, R&D, and Utthan (VIKI.AI)

- Built and maintained 20+ RESTful APIs with NestJS across distributor, installer, stakeholder, SOP, service, survey, and OEM modules, supporting thousands of records at scale.
- Deployed AWS SQS-based asynchronous pipelines and AI-powered document extraction and translation services using Python and Flask, cutting request latency by ~40% under high document volumes.

TaraMind — Healthcare Portal

- Spearheaded backend service improvements that streamlined inter-service communication and boosted application responsiveness by 25%.
- Integrated cloud-native AWS services (Lambda, S3, DynamoDB, CloudWatch) implementing serverless architectures for scalable, high-performance healthcare data storage.

EDUCATION

Bachelor of Engineering — Electronics and Communication Engineering

VEL Tech High Tech DR. RR and DR. SR Engineering College, Chennai

Computer Science (HSC)

Velammal Matriculation Higher Secondary School

CERTIFICATIONS

- Google Cloud Associate Cloud Engineer — Udemy, 2025
- Advanced Web Development Specialist — LinkedIn Learning, 2023
- Certified Full Stack Web Developer — Besant Technologies, 2021
